

## Survey Results for 2014 Shader Croft Program

### Key

-1	Decrease in ability
0	No change in ability
1	Slight improvement
2	Moderate improvement
3	Significant improvement

### Notes of explanation:

The chart reflects the results of a survey given to last year's Shader Croft students, their parents and their teachers. Each respondent was asked to assess a student's development as a result of his or her participation in the Shader Croft Summer Literacy Program. The respondents were asked to base their judgment on as much concrete objective data as possible. Teachers responses were not included if they did not have the student the previous year. Thirty out of thirty-three students responded and nine out of thirty-three parents responded.
