

2015 Shader Croft School Survey Results

Key

- 1 Decrease in ability
- 0 No change in ability
- 1 Slight improvement
- 2 Moderate improvement
- 3 Significant improvement

Notes of explanation:

The chart is the results of a survey given to last year's Shader Croft students, their parents and their teachers. Each respondent was asked to assess a student's development as a result of his or her participation in the Shader Croft summer literacy program. The respondents were asked to base their judgement on as much concrete objective data as possible. Teacher responses were not included if they did not have the student the previous year. Forty three out of forty nine students responded. Of the thirty parents asked, ten responded.
