**Notes of Explanation**

The chart is the result of a survey given to last year’s Shader Croft students, their teachers and parents. Each respondent was asked to assess a student’s development as a result of his or her participation in the Shader Croft Summer Literacy Program. The respondents were asked to base their judgement on as much concrete objective data as possible. 37 out of 45 students responded, 8 of the 19 parents responded (due to language barriers parents of the 25 ELL students were not surveyed) and 19 educators responded. Teachers who did not have the student both last year and this year were not surveyed.
